Summary

I am a dedicated WordPress Designer and React.js Developer with 1.5 years of hands-on experience in creating responsive, high-performance websites. I possess strong skills in Elementor, WooCommerce, and website optimization, including malware removal and security hardening. Proficient in React.js for modern, interactive web interfaces. A passionate Computer Science student with strong problem-solving skills, committed to continuous learning, innovation, and delivering high-quality digital solutions.

Work Experience

Freelance Web Developer

Wow Solution

📅 01/2024 - 07/2024

Freelance Web Developer specializing in WordPress projects

- Designed and customized WordPress websites using Elementor and WooCommerce
- Optimized site performance and implemented security measures

Education

B.Sc. in Computer Science & Engineering

Leading University

📅 01/2022 - 12/2025 📍 Sylhet

Certifications

- **WordPress Malware Removal & Hacked Website Recovery**

Gained in-depth knowledge of WordPress security, including malware detection, file cleanup, and recovery of hacked websites. Learned advanced techniques for website hardening, backup automation, and prevention of future attacks using industry-standard tools and plugins.

- **WordPress Theme & Plugin Customization – Basic to Mastery Course**

Mastered the art of customizing WordPress themes and plugins using PHP, HTML, CSS, and JavaScript. Acquired expertise in creating tailored website features, integrating third-party APIs, and optimizing website performance for client projects.

- **WordPress Theme Development with Projects**

Learned how to build custom WordPress themes from scratch, implement dynamic functionality, and follow best practices in coding standards. Worked on real-world projects that emphasized responsive design, SEO optimization, and clean UI/UX.

- **Full Stack Web Development in MERN Stack (Beginner to Advanced)**

Completed a comprehensive Full Stack Development program covering MongoDB, Express.js, React.js, and Node.js. Developed multiple full-stack projects, focusing on RESTful API integration, authentication, and responsive UI design with deployment on modern hosting platforms.
